Previous Award Winners

**Nathan B. Eddy Memorial Award**  
1974 • Maurice Seevers  
1975 • Harris Isbell  
1976 • Abraham Wikler  
1977 • William Martin  
1978 • Hans Kosterlitz  
1979 • E. Leong Way  
1980 • Avram Goldstein  
1981 • Everette May  
1982 • Vincent Dole  
1983 • Eric Simon  
1984 • Raymond Houde  
1985 • Louis Harris  
1986 • Harold Kalant  
1987 • Clifton K. Himmelsbach  
1988 • Albert Herz  
1989 • Leo E. Hollister  
1990 • Charles Schuster  
1991 • Philip S. Portoghese  
1992 • Joseph V. Brady  
1993 • Lee N. Robins  
1994 • Jerome H. Jaffe  
1995 • Herbert D. Kleber  
1996 • Griffith Edwards  
1997 • Martin W. Adler  
1998 • John W. Lewis  
1999 • Mary Jeanne Kreek  
2000 • William L. Dewey  
2001 • Kenner C. Rice  
2002 • Horace H. Loh  
2003 • Charles P. O’Brien  
2004 • James H. Woods

**Joseph Cochin Young Investigator Award**  
1987 • Michael Bozarth  
1988 • Frank Porreca  
1989 • Errol B. De Souza  
1990 • Thomas Kosten  
1991 • Richard Rothman  
1992 • Jeffrey M. Wikin  
1993 • Stephen Higgins  
1994 • Richard W. Foltin  
1995 • Warren K. Bickel  
1996 • Toni Shippenberg  
1997 • Lisa H. Gold  
1998 • S. Stevens Negus  
1999 • Sari Izenwasser  
2000 • Leslie Amass  
2001 • S. Barak Caine  
2002 • Laura Sim-Selley  
2003 • Andrew Coop  
2004 • Sandra D. Comer

**J. Michael Morrison Award**  
1986 • Edward C. Tocci  
1988 • Marvin Snyder  
1990 • Arthur E. Jacobson  
1992 • Hans Halbach  
1993 • Beny Primm  
1995 • Jack D. Blaine  
1997 • Rao Rapaka  
1999 • Roy W. Pickens  
2001 • Roger Brown  
2003 • Richard L. Hawks  
2004 • Ronald Brady

**Mentorship Award**  
2000 • Robert L. Balster  
2001 • James H. Woods  
2002 • Conan Kornetsky  
2003 • Charles R. Shuster  
2004 • E. Leong Way

**Distinguished Service Award**  
1994 • Richard A. Millstein  
2002 • Alan I. Leshner  
2003 • Francis Vocci, Jr.  
Charles O’ Keeffe

**Media Award**  
1990 • Katie McCabe  
1992 • James Burke  
1998 • Riester Robb  
2000 • Sean Clarkin  
2001 • Carlos Davila Rinaldi  
2002 • David T. Courtwright  
2003 • Addiction Studies Program for Journalists  
2004 • Peter Reuter

Plenary Program & 2005 Awards

Sunday June 19 • Great Hall, Wyndham Palace Hotel • Orlando, Florida

8:30 • Welcome  
Warren K. Bickel, President, CPDD

8:45 • Report from National Institute on Drug Abuse  
Nora D. Volkow, Director, NIDA

9:15 • Presentation of the Meritorious Service Award to Ian P. Stolerman  
Introduction by Chris-Ellyn Johanson

9:20 • Presentation of the Media Award to Brian Vastag  
Introduction by Marc J. Kaufman

9:25 • Presentation of the Joseph Cochin Young Investigator Award to Thomas E. Eissenberg  
Introduction by Robert L. Balster

9:30 • Presentation of the Joseph Cochin Young Investigator Award to James K. Rowlett  
Introduction by William L. Woolverton

9:35 • Presentation of the Mentorship Award to Linda A. Dykstra  
Introduction by Alison Oliveto-Beaudoin

9:40 • Presentation of the Nathan B. Eddy Award to Conan Kornetsky  
Introduction by George F. Koob

9:45 • Nathan B. Eddy Award Lecture: A Walk through the History of Drug Abuse: Research, Trends, & Fads  
Conan Kornetsky, Boston University School of Medicine
Ian P. Stolerman, Ph.D.
Professor, Institute of Psychiatry

Ian Stolerman is Professor of Behavioural Pharmacology at the Institute of Psychiatry, King’s College London. He qualified in Pharmacy in 1964 and received a Ph.D. in psychopharmacology (University of London). His postdoctoral experience was at the Albert Einstein College of Medicine (NY) and UCLA. He became a member of the UK Medical Research Council Scientific Staff in 1974 and in 1980 moved to the Institute of Psychiatry, London. He is known best for his MRC-supported research on nicotine, an area in which he has worked for over 30 years. He has also carried out NIDA-supported work on the discrimination of abused drug mixtures and on the drug discrimination database. He was a founder and first President of the European Behavioural Pharmacology Society and subsequently served as President of the Society for Stimulus Properties of Drugs and of the International Society of Addiction Journal Editors. He was a member of the editorial boards of, and was a receiving editor for, several journals until, in 1992, he became Associate Editor of Drug and Alcohol Dependence. He was responsible for all manuscripts originating from outside the Americas and, from that time onwards, editorial duties played a major role in his working life.

Conan Kornetsky, Ph.D.
Professor, Boston University School of Medicine

Dr. Conan Kornetsky was born February 9, 1926 in Portland, Maine. He graduated in 1943 from Portland High School, in 1948 from the University of Maine and in 1944-45 served in the Army Air Corps. He received his Ph.D. in psychology in 1952 from the University of Kentucky, Lexington. Throughout his graduate program at the University of Kentucky, he worked in the Clinical Psychology Department and the Research Department of the USPHS Hospital in Lexington. His research was under the direction of Harris Isbell, Abraham Wikler and Harris Hill. In 1952-53, under the auspices of NIMH, he with Donald Gerard studied juvenile drug addiction in New York City and with Murray Jarvik, 1953-54, did experiments on the effects of LSD. In 1954 he moved to NIH in Seymour Kety’s Laboratory of Clinical Science where he studied behavioral effects of the newly emerging psychotherapeutic drugs in normal and schizophrenic subjects. In 1959, his tenure began at Boston University School of Medicine. There he continued his studies of schizophrenia as well as experiments on tolerance to opiates, often collaborating with Joseph Cochin. In the 1970’s his work began to focus on the brain reward system and how it was affected by substances of abuse. During the past couple of years he has directed his studies to the role of aging in response to substances of abuse.
Brian Vastag
Associate News Editor, JAMA

Before becoming associate news editor at JAMA in 2000, Brian Vastag worked as a press officer for the National Cancer Institute and Johns Hopkins Medical Institutions. During his four years at JAMA in Washington, DC, Mr. Vastag wrote countless news briefs and some 100 feature articles, including profiles of top scientists and examinations of the social impact of biomedical advances. He covered extensively the National Institutes of Health and Capitol Hill. As a freelance science journalist, Mr. Vastag specializes in addiction, brain sciences, cancer, and genetics, but covers the entire breadth of biomedical research. He began his career writing about space science, anthropology, evolutionary biology, sociology, and psychology. Mr. Vastag’s training includes 18 months of graduate coursework in science and technology journalism at Texas A&M University, graduate courses in genomics and bioinformatics at George Washington University, and countless hours listening to some of the smartest people on earth.

Linda A. Dykstra, Ph.D.
Kenan Professor, University of North Carolina

Dr. Linda Dykstra is a Kenan Distinguished Professor in the Departments of Psychology and Pharmacology and the Curriculum in Neurobiology at the University of North Carolina at Chapel Hill. She is also Dean of the Graduate School. Dr. Dykstra received her M.A. and Ph.D. from the University of Chicago and her B.A. from Hope College in Holland, Michigan. Dr. Dykstra has been the major research advisor for a large number of predoctoral and postdoctoral fellows and has directed a NIDA-supported training program in research related to drug abuse for the last 15 years. She also directs NIGMS Bridge program that is designed to encourage students from underrepresented groups to pursue doctoral training in the biomedical sciences. For over 30 years, Dr. Dykstra has led an active research program, focusing on the behavioral pharmacology of opioid analgesics, both in relation to their pain-relieving properties as well as their tendency to produce tolerance and dependence. A more recent research interest of her laboratory is the investigation of behavioral phenotypes related to substance abuse using genetically altered mice. She has received continuous support for her research from the National Institute on Drug Abuse since 1977 and has been recognized with a Research Career Development Award, a Research Scientist Award and a MERIT award for her research contributions. Dr. Dykstra has held several professional leadership positions, including being President of the College on Problems of Drug Dependence. She is an elected member of the American College of Neuropsychopharmacology and currently serves as Chair of the Behavioral Pharmacology Division of the American Society of Pharmacology and Experimental Therapeutics and as Vice-President/President of the North Carolina Association of Biomedical Research.
Dr. James K. Rowlett received his undergraduate degree from Morehead State University (1988), where he first obtained research experience under the guidance of Dr. Bruce A. Mattingly. In 1993, he received a Ph.D. in psychology from the University of Kentucky under the mentorship of Dr. Michael T. Bardo. Dr. Rowlett then joined the laboratory of Dr. William L. Woolverton at the University of Mississippi Medical Center and received training in primate models of stimulant and anxiolytic abuse. In 1997, Dr. Rowlett moved to the New England Primate Research Center (NEPRC) as an Instructor in the Department of Psychiatry at Harvard Medical School under the mentorship of Dr. Roger D. Spealman. At NEPRC, he initiated research programs on anxiolytic, stimulant, and polydrug abuse. Currently, Dr. Rowlett is an Assistant Professor and Supervisor of the Behavioral Pharmacology Laboratory in the Division of Behavioral Biology at NEPRC, as well as an Associate Scientist in the Neuroscience and Behavior Program of the University of Massachusetts at Amherst. He has been a member of CPDD since 1994 and is a former CPDD Travel Award recipient. Dr. Rowlett is the author or co-author of more than 75 articles, reviews, and book chapters on research related to drug abuse and neuropsychiatric disorders.
